

Tin Knocker

SHEET METAL WORKING MACHINERY

MORE TO SELL, EXPANDING OUR OFFERING

Now offers new Handheld Pin Spotters from Climatech International

New CDW-72 Welding Machine, 20 Pins Per Minute (1ph-100v) = \$3,250.00

The welding machine (CDW-72) allows the fixing of insulation material on sheet metal such as airducts in a single operation. The CDW-72 ensures a high quality of weld on sheet metal up to a thickness of several centimeters. Due to long cables and light weight, this machine is useful for jobsite. This machine uses the capacitor discharge technique and allows clips to be welded without overheating mark on the opposite side of metal sheet. It is recommended to use our weld fasteners CDF with our welding machine CDW-72. The welding machine is available with red carrying case.

New F100 Cordless Stud Welder, 20 Pins per minute (Makita Battery) = \$4,250.00

The welding machine (F 100 accu) working on batteries allows the fixing of insulation material on sheet metal such as airducts in a single operation. The F 100 accu ensures a high quality of weld on galvanized sheet metal. The cordless welding machine, combined with long cables and a light weight makes it the proper tool for the jobsite. This machine uses the capacitor discharge technique and allows clips to be welded without overheating mark on the opposite side of metal sheet. It is recommended to use our weld fasteners CDF with our welding machine F100 accu. The welding machine is available with a red carrying case.
